BUSINESS REQUIREMENTS

Business Requirements Document (BRD)

Bellomassi Order-to-Delivery Management Platform

Document ID	BM-BRD-001

Document control

Field	Value
Document title	Business Requirements Document (BRD)
Document ID	BM-BRD-001
Version	1.0
Status	Draft — for client review
Category	Business Requirements
Related module(s)	All modules
Document owner	Business Analyst
Prepared by	Project documentation team (AI-assisted draft prepared from source-code analysis)
Reviewed by	*Pending — not yet reviewed*
Approval	*Not approved — awaiting client review (no approval has been given)*
Created date	2026-11-12
Last updated date	2026-11-12

> **Status labels used in this document:** VERIFIED (confirmed in the current source code or existing documents) · PROTOTYPE (works in the React/LocalStorage prototype with mock or simulated behaviour) · PROPOSED (recommended production design, not built) · PENDING CONFIRMATION (needs a client decision) · NOT IMPLEMENTED · NOT VERIFIED.

Purpose

Define what the business needs from the Bellomassi platform, independent of technology, so that the client can approve the requirement baseline for production.

Scope

Order-to-delivery process from order capture to OTP-confirmed delivery and delivery note, the Admin Panel, and the prototype extensions that need a scope decision.

Definitions

Term	Definition
Business requirement (BR)	A need of the business, stated without design detail, traced to functional requirements
Prototype	The React / LocalStorage application used to validate workflows; not production software

Other terms: see **BM-GLO-001** (Project Glossary).

1. Executive summary

Bellomassi distributes frozen and chilled food. Orders arrive by phone, email and WhatsApp and are handled manually through approval, preparation, dispatch and delivery. The business needs **one digital order path** with manager approval and credit control, consolidation by Customer Service, zone-

based dispatch, a driver app with the fastest route, and **customer-confirmed handover by OTP** with an instant delivery note, under the control of an Admin Panel and ready for SAP integration. A working prototype demonstrates these workflows today; this BRD states the business requirements for the production platform and identifies what still needs client decision.

2. Business background

See **BM-OVW-006** (Project Background). The client Scope of Work (October 2026) is the requirement baseline; the Driver App GPS guide adds tracking requirements. The prototype has validated the workflows and introduced extensions (inventory, invoices, customer app, VMS, documents, communication, AI) whose production scope is not yet agreed.

3. Business objectives

OBJ-01 Control · OBJ-02 Visibility · OBJ-03 One record · OBJ-04 Efficient delivery · OBJ-05 Accountability · OBJ-06 Proof of delivery · OBJ-07 Ready for SAP — defined with proposed measures in **BM-OVW-003** (Project Vision and Objectives).

4. Existing business problems

P-01 multiple channels and re-entry · P-02 manual approval and credit · P-03 unclear consolidation · P-04 manual planning, late driver information · P-05 no proof of handover · P-06 no single status · P-07 item data from emails — see **BM-OVW-004** (Business Problem Statement).

5. Proposed solution

A shared platform with three applications (SOW slide 4):

- **Order Taking App** (mobile and web) — capture, approve, consolidate, dispatch.
- **Drivers App** (iOS and Android) — next-day plan, suggested route, OTP handover.
- **Admin Panel** (web) — users, customers, items, zones, rules, live monitor, reports.

Shared services: one order record, workflow and approvals, live notifications, OTP service, maps and routing, audit trail. Second stage: SAP integration.

6. Business scope

In scope (SOW)	Scope to be confirmed (prototype extensions)	Out of scope (SOW)
Order capture, approval, credit check, consolidation, zone dispatch, driver app, route, OTP, delivery note, notifications, Admin Panel, reports, SAP (stage 2)	Customer app, invoicing, inventory, scrap, VMS, documents / OCR, email / WhatsApp, call history, AI, extra roles	Invoicing and finance documents (SOW slide 13), payments

7. Stakeholders

See **BM-OVW-009** (Stakeholder Identification) and **BM-OVW-010** (Stakeholder Responsibility Matrix). Business owners named below are roles; names are PENDING CONFIRMATION.

8. Business requirements

ID	P	Requirement	Business owner (role)	Source	Label	Functional requirements
BR-001	P1	Every customer order received by call, email or WhatsApp shall be captured once in one structured digital record.	Sales Director	SOW slide 2, 7	VERIFIED	FR-ORD-001, FR-ORD-002, FR-ORD-003, FR-ORD-011
BR-002	P1	No order shall be shipped without Sales Manager approval of value, quantity and credit position.	Sales Director	SOW slide 8	VERIFIED	FR-APR-001, FR-APR-002, FR-APR-003, FR-APR-007
BR-003	P1	Every order shall be checked against the customer's credit limit and exceptions shall be flagged.	Finance Manager	SOW slide 8, 18	VERIFIED	FR-CRD-001, FR-CRD-002, FR-CRD-003, FR-APR-008
BR-004	P1	Returned and rejected orders shall always carry the manager's reason back to the salesman.	Sales Director	SOW slide 8	VERIFIED	FR-APR-004, FR-APR-005, FR-ORD-005
BR-005	P1	Customer Service shall receive only approved orders, grouped per salesman, verify them and release them to dispatch.	Operations Manager	SOW slide 9	VERIFIED	FR-CON-001, FR-CON-002, FR-CON-003, FR-CON-004
BR-006	P1	The Dispatcher shall plan deliveries by zone and assign orders to drivers and vehicles.	Logistics Manager	SOW slide 10	VERIFIED	FR-DSP-001, FR-DSP-002, FR-DSP-008, FR-ZON-001, FR-ZON-002, FR-DRA-001
BR-007	P1	Drivers shall see the next day's delivery plan the day before.	Logistics Manager	SOW slide 10, 12	VERIFIED	FR-DRV-001, FR-DSP-004
BR-008	P1	Each driver shall receive a suggested fastest route using distance and live traffic, with VIP requested times respected or warned.	Logistics Manager	SOW slide 12; GPS guide §5	PROPOSED	FR-DSP-003, FR-DSP-009, FR-DRV-009
BR-009	P1	Every handover shall be confirmed with a one-time password given by the customer.	Operations Manager	SOW slide 13	VERIFIED	FR-OTP-001, FR-OTP-002, FR-OTP-003, FR-OTP-005, FR-DRV-003, FR-DRV-004
BR-010	P1	A delivery note shall be issued to the customer as soon as the handover is confirmed.	Operations Manager	SOW slide 13	VERIFIED	FR-DN-001, FR-DN-002, FR-DN-003
BR-011	P1	Every order shall have one clear status visible to every role, with a full history.	Operations Manager	SOW slide 17	VERIFIED	FR-ORD-008, FR-DASH-001, FR-TRK-001, FR-CAP-003
BR-012	P1	The right person shall be notified at each workflow event (in-app; customers by SMS or WhatsApp).	Management	SOW slide 16	VERIFIED	FR-NOTF-001, FR-AUTO-001, FR-AUTO-002, FR-APR-008, FR-OTP-005
BR-013	P1	Administrators shall control users, roles and what each role can see and do.	IT / Administrator	SOW slide 15	VERIFIED	FR-USR-001, FR-USR-002, FR-RBAC-001, FR-RBAC-002, FR-RBAC-003, FR-RBAC-004, FR-RBAC-005
BR-014	P1	Administrators shall maintain customers, delivery locations, credit limits, items, zones and drivers.	IT / Administrator	SOW slide 15	VERIFIED	FR-CUS-001, FR-CUS-002, FR-PRD-001, FR-ZON-001, FR-DRA-004

ID	P	Requirement	Business owner (role)	Source	Label	Functional requirements
BR-015	P2	Management shall monitor orders live and export reports on orders, approvals, dispatch and delivery performance.	Management	SOW slide 15	VERIFIED	FR-RPT-001, FR-RPT-002, FR-DASH-002, FR-DASH-006
BR-016	P1	Admin users shall see all active vehicles live; each customer shall see only the vehicle of their own order.	Logistics Manager	GPS guide §1, §6, §9	PROTOTYPE	FR-TRK-001, FR-TRK-002, FR-TRK-003, FR-CAP-004
BR-017	P1	The driver app shall be a mobile app with admin-created accounts and background GPS during active deliveries only.	Logistics Manager	GPS guide §2–§4, §8	PROPOSED	FR-DRV-002, FR-DRV-010, FR-DRV-011, FR-AUTH-002
BR-018	P2	Items and quantities shall be updated from SAP in a second stage (today from emails).	IT / Administrator	SOW slide 4, 15	PROPOSED	FR-PRD-004, FR-INV-008, FR-CRD-005
BR-019	P2	Stock per product and hub shall be controlled with receipts, transfers, adjustments and a movement ledger.	Warehouse Manager	Phase 2 brief	VERIFIED	FR-INV-001, FR-INV-002, FR-INV-003, FR-INV-004, FR-INV-005, FR-INV-006
BR-020	P2	Unusable stock shall be written off only after approval by a different user, with evidence.	Warehouse Manager	Finalisation brief	VERIFIED	FR-SCR-001, FR-SCR-002, FR-SCR-003, FR-SCR-004
BR-021	P2	Vehicles and drivers with expired mandatory documents shall not be assigned to deliveries.	Fleet Manager	Phase 5 brief	VERIFIED	FR-VMS-001, FR-VMS-002, FR-VMS-003, FR-VMS-004, FR-DRA-002, FR-DRA-003
BR-022	P2	Business documents shall be stored centrally, read by OCR and verified before use.	Operations Manager	Phase 5 brief	PROTOTYPE	FR-DOC-001, FR-DOC-002, FR-DOC-003, FR-DOC-004, FR-DOC-005
BR-023	P2	Customer invoices shall be produced from orders with branded templates (SOW keeps invoicing outside the app).	Finance Manager	Phase 5 brief (beyond SOW)	PENDING CONFIRMATION	FR-INVC-001, FR-INVC-002, FR-INVC-003, FR-INVC-004, FR-INVC-005
BR-024	P2	Staff shall communicate with customers by email and WhatsApp from the platform, manually and automatically.	Sales Director	Phase 5 brief	PROTOTYPE	FR-EML-001, FR-EML-002, FR-OWA-001, FR-OWA-003, FR-AUTO-001
BR-025	P3	Customer calls and follow-ups shall be logged and linked to orders.	Sales Director	Finalisation brief	VERIFIED	FR-CALL-001, FR-CALL-002
BR-026	P2	Customers shall order, track deliveries and access delivery notes and invoices in a self-service app.	Customer Experience	Finalisation brief (beyond SOW)	PENDING CONFIRMATION	FR-CAP-001, FR-CAP-002, FR-CAP-003, FR-CAP-004, FR-CAP-005, FR-CAP-006, FR-CAP-008
BR-027	P2	Failed and partial deliveries shall be reviewed and resolved by the Dispatcher with stock returned correctly.	Operations Manager	Phase 4 brief	VERIFIED	FR-EXC-001, FR-EXC-002, FR-EXC-003, FR-DRV-005
BR-028	P2	Every dashboard shall be filterable by period, including the financial year, with comparison to the previous period.	Management	UI/filter brief	VERIFIED	FR-DASH-002, FR-DASH-003, FR-DASH-004, FR-DASH-005

ID	P	Requirement	Business owner (role)	Source	Label	Functional requirements
BR-029	P1	Only authorised users with active accounts shall sign in; sessions shall expire and accounts lock after repeated failures.	IT / Security	GPS guide §2; Phase 1 brief	VERIFIED	FR-AUTH-001, FR-AUTH-004, FR-AUTH-005, FR-AUTH-006, FR-AUTH-011, FR-AUTH-012, FR-AUTH-013
BR-030	P1	Administrative actions shall be auditable and configuration shall be centrally managed.	IT / Security	Phase 1 brief	VERIFIED	FR-SET-001, FR-SET-002, FR-SET-003, FR-SET-004
BR-031	P3	Management shall get demand forecasts, reorder suggestions and an assistant for business questions.	Management	Phase 6 brief	PROTOTYPE	FR-AI-001, FR-AI-002, FR-AI-003, FR-AI-004, FR-AI-005
BR-032	P2	Warehouse and QA staff shall see picking, quarantine, inspections and document expiry in one place.	Quality Manager	Finalisation brief	VERIFIED	FR-WQA-001, FR-WQA-002, FR-WQA-003
BR-033	P1	Proof of delivery (quantities, receiver, signature, photo) shall be captured with every handover.	Operations Manager	SOW slide 13; Phase 4 brief	VERIFIED	FR-POD-001, FR-POD-002, FR-POD-003

Full traceability to functional requirements and test cases: **BM-BRD-002** (Business Requirement Traceability).

9. Business rules

The 44 business rules enforced by the prototype are listed in **BM-SYS-007** (Business Rules Catalogue). Key rules:

1. No order is shipped without Sales Manager approval (RULE-010 … RULE-015).
2. Credit over limit is a warning; it blocks approval when the client enables blocking (RULE-011).
3. Every return or rejection carries a reason (RULE-014).
4. Only approved, consolidated orders reach the Dispatcher (RULE-016, RULE-017).
5. Only compliant, available drivers and vehicles of the right hub and capacity are assigned (RULE-023 … RULE-025).
6. Stock leaves the hub once, at dispatch confirmation (RULE-020, RULE-021).
7. A delivery is completed only with the customer’s valid OTP (RULE-027).
8. Failed and partial deliveries are reviewed by the Dispatcher (RULE-031).

10. Business constraints

- Customer messages (OTP, delivery note) require an SMS or WhatsApp provider account (SOW slide 16).
- Maps and routing depend on a paid provider (Google Maps Platform / Routes API; usage-based charges — GPS guide §12).
- Mobile GPS depends on drivers’ phones, permissions, battery and connectivity (GPS guide §7–8).
- SAP integration depends on the client’s SAP interfaces (stage 2).
- See **BM-SYS-005** (System Constraints Document).

11. Assumptions

- The SOW is the agreed functional baseline unless the client approves the extensions.
- Drivers have company-provided or compatible smartphones with data plans.
- Customers can receive SMS or WhatsApp messages on a registered mobile number.
- See **BM-SYS-006** (Assumptions and Dependencies).

12. Dependencies

Client master data (customers, items, zones, drivers, vehicles) · provider accounts (maps, messaging, email) · hosting decision · SAP team availability (stage 2). See **BM-PM-005** (Issue, Dependency and Decision Registers).

13. Business benefits

See **BM-OVW-005** (Business Benefits).

14. Success criteria — PROPOSED, pending confirmation

#	Criterion
SC-01	100% of orders are captured in the platform within one month of go-live
SC-02	100% of dispatched orders have an approval record and credit check
SC-03	Drivers receive the next-day plan before the end of the previous working day
SC-04	≥ 98% of deliveries confirmed by OTP; all exceptions reviewed within one working day
SC-05	Delivery note received by the customer within 5 minutes of handover
SC-06	Management can see the status of any order in real time

15. Acceptance criteria

The BRD is accepted when the client confirms: (1) the business requirements table, (2) the scope decision for each prototype extension (section 6), (3) the open decisions in **BM-HND-012** (Pending Requirements Document). The delivered system is accepted through UAT (**BM-QA-003** (User Acceptance Testing (UAT) Plan), **BM-QA-012** (UAT Test Cases)).

16. Out-of-scope items

Invoicing and financial documents (unless the client brings the prototype invoice module into scope) · payments, receipts, credit notes and refunds · purchase invoices · fleet fuel and maintenance costing · cold-chain sensor hardware · driver self-registration (GPS guide §2) · dedicated truck GPS hardware (first release; GPS guide §7).

17. Risks

Key business risks (full register **BM-RSK-002** (Project Risk Register)): unclear scope of extensions; country rules (UAE / India) undecided; messaging provider policy (OpenWA is unofficial); mobile GPS reliability; SAP interface availability; user adoption by drivers; data migration of customer and item master.

18. Business approval

This document has **not been approved**. Signature fields are intentionally blank.
