2. Relationship to the existing workflow documentation

The complete workflow documentation delivered on 12 November 2026 (`docs/workflow/`, 20 chapters, 38 diagrams, HTML / PDF / DOCX editions) is **preserved unchanged** and remains the narrative source. The 24 specifications in this folder restate each workflow in the standard enterprise format (ID, purpose, initiating role, preconditions, trigger, steps, decisions, approval / rejection conditions, system and user actions, status changes, notifications, exceptions, outcome) and link it to requirements and test cases.

3. Order lifecycle (overview)
