Field	Value
Document title	Office Web Application User Manual (All Office Roles)
Document ID	BM-MAN-003
Version	1.0
Status	Draft — for client review
Category	User Manuals
Related module(s)	All modules
Document owner	Training Lead
Prepared by	Project documentation team (AI-assisted draft prepared from source-code analysis)
Reviewed by	*Pending — not yet reviewed*
Approval	*Not approved — awaiting client review (no approval has been given)*
Created date	2026-11-12
Last updated date	2026-11-12

> **Status labels used in this document:** VERIFIED (confirmed in the current source code or existing documents) · PROTOTYPE (works in the React/LocalStorage prototype with mock or simulated behaviour) · PROPOSED (recommended production design, not built) · PENDING CONFIRMATION (needs a client decision) · NOT IMPLEMENTED · NOT VERIFIED.

Purpose

Common guide to the office web application and the main order-to-delivery procedures; role details are in the role manuals.

Scope

Office web app of the prototype (VERIFIED with real screenshots captured 2026-11-12, demo data).

Definitions

Other terms: see **BM-GLO-001** (Project Glossary).

- **BM-UX-005** (Screen Specifications)

1. Signing in and out

1. Open the application and sign in with your user name or email and password.
2. Tick *Remember username* / *Keep me signed in* only on your own computer.
3. After 5 wrong passwords the account is locked for 15 minutes (default) — an Administrator can unlock it.
4. Inactivity signs you out after 60 minutes (default setting).
5. Sign out from the profile menu (top right).

2. Finding your way

Element	Use
Sidebar	Menu groups for your role; collapse with the arrow; on small screens it opens as a drawer
Breadcrumbs	Shows where you are; click to go back
Global search (Ctrl K)	Find pages, customers, orders, deliveries, drivers, vehicles, reports
Bell	Notifications; open the Notification Center for history
Theme	Light / dark mode
Profile menu	My profile, change password, preferences, sign out
Dashboard period filter	All time, date range, specific period, compare with previous period

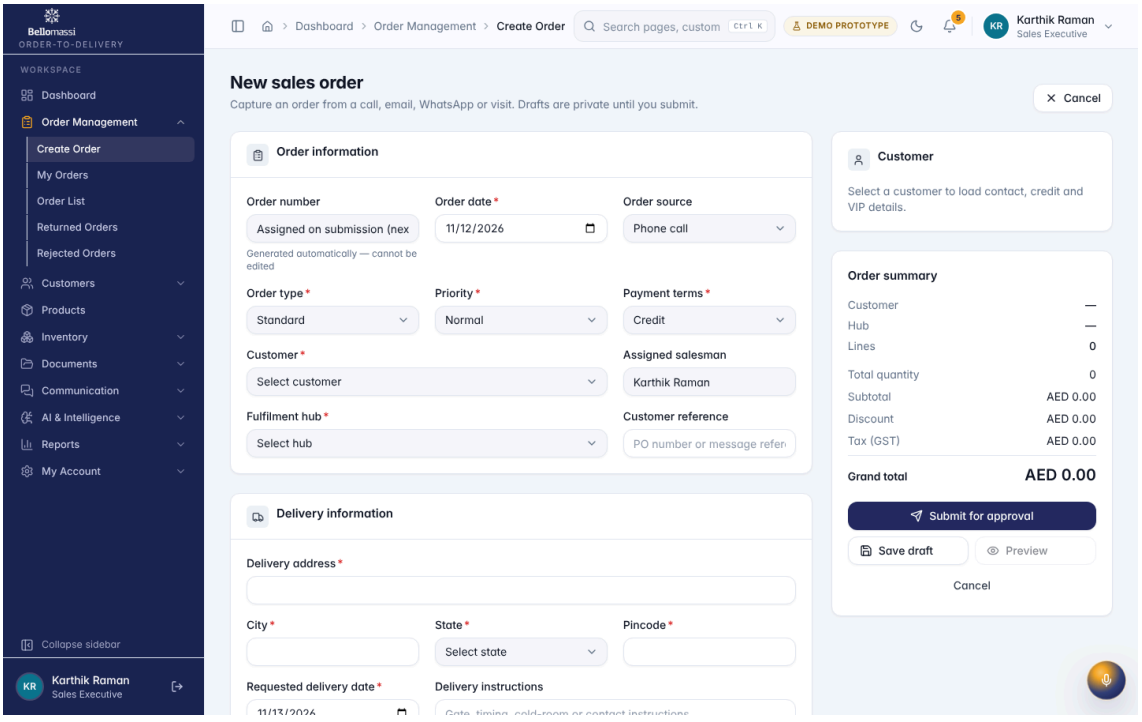

3. Working with lists and forms

- Lists: search box, filters, sorting by column header, paging, row actions (view, edit, more).
- Forms: fields with * are mandatory; errors appear below the field; **Save draft** keeps unfinished work; destructive actions ask for confirmation.
- Every important change is written to the audit log.

4. Main procedures

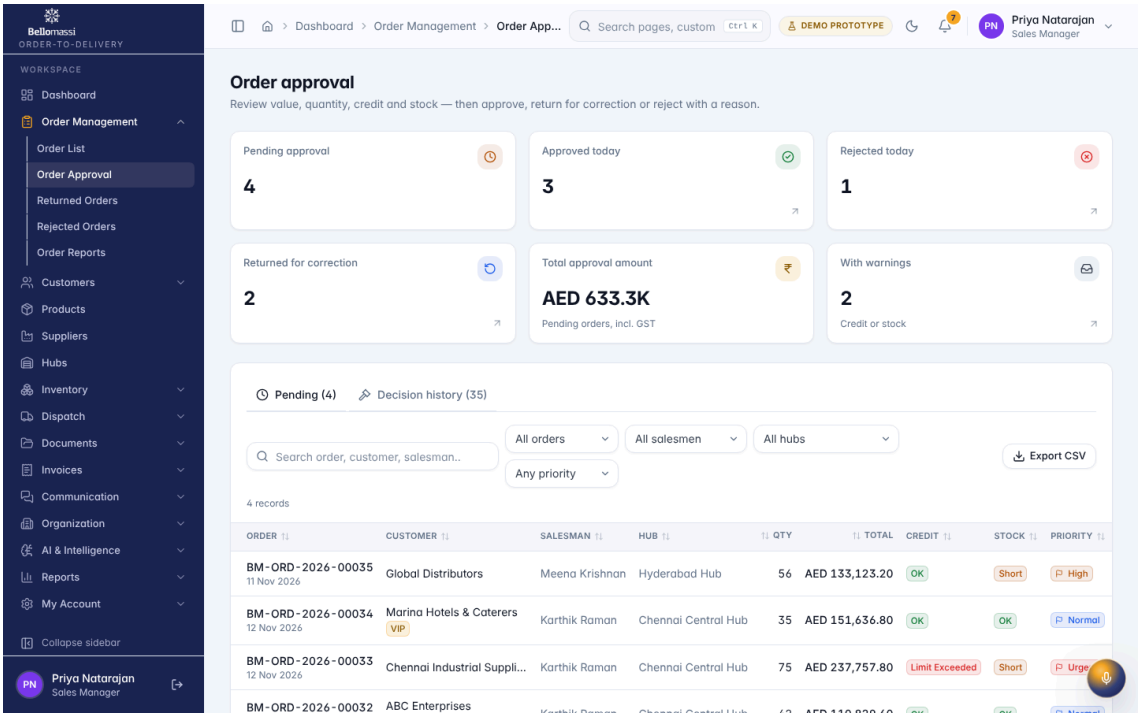

4.1 Create and submit an order (Salesman)

1. **Orders → Create Order**. Choose customer, order type, priority, payment terms, fulfilment hub; delivery address and requested date.
2. Add products and quantities; review warnings (stock, credit).
3. **Preview**, then **Submit for approval** (or **Save draft**).

4.2 Approve, return or reject (Sales Manager)

1. **Order Approval** shows submitted orders.
2. Open an order; review the 6 automatic checks (including credit).
3. **Approve**, **Return for correction** (reason required) or **Reject** (reason required).

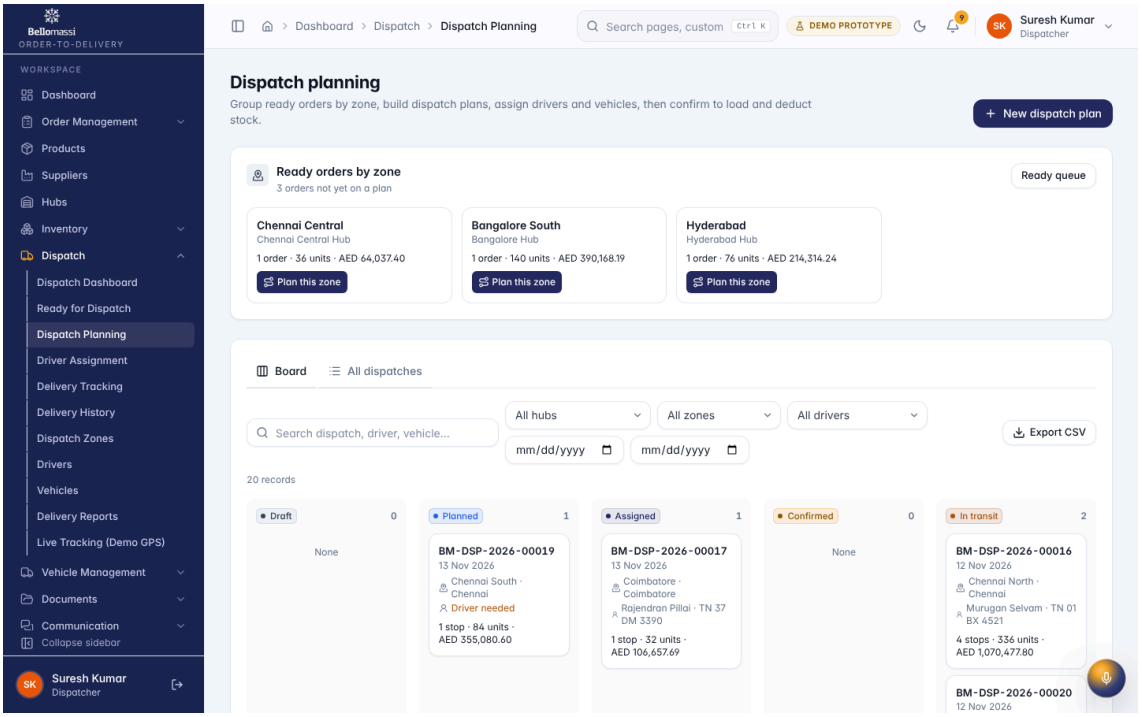

4.3 Consolidate (Customer Service)

Order Consolidation → open approved orders per salesman → verify (5 checks) → consolidate → **Ready for dispatch**.

4.4 Plan and confirm a dispatch (Dispatcher)

1. **Ready Orders** → select orders (by zone / date).
2. **New Dispatch**: orders, zone, date, stop sequence; assign a compliant driver and vehicle of the same hub.
3. **Confirm** after loading review — stock is deducted at this point and the driver can start.
4. Follow progress in **Delivery Tracking** / **Live Tracking** (DEMO GPS).
5. Review failed / partial deliveries: return stock or re-queue.

4.5 Delivery notes and invoices

Delivery notes are created automatically for each completed stop (**Dispatch → delivery note**). Invoices (Finance) are an extension module; whether invoicing is in scope is PENDING CONFIRMATION.

4.6 Reports

Reports Center: 118 reports in 11 categories — search, filter, group, export CSV, print. 24 reports show “No source data” because the prototype does not capture that data.

5. Role manuals

Role	Manual
Super Admin	**BM-MAN-101** (Role User Manual — Super Admin)
Administrator	**BM-MAN-102** (Role User Manual — Administrator)
Sales Executive	**BM-MAN-103** (Role User Manual — Sales Executive (SALESMAN))
Sales Manager	**BM-MAN-104** (Role User Manual — Sales Manager)
Customer Service	**BM-MAN-105** (Role User Manual — Customer Service)
Dispatcher	**BM-MAN-106** (Role User Manual — Dispatcher)
Finance	**BM-MAN-108** (Role User Manual — Finance Executive)
Warehouse Manager	**BM-MAN-109** (Role User Manual — Warehouse Manager)
Inventory Executive	**BM-MAN-110** (Role User Manual — Inventory Executive)
QA Manager	**BM-MAN-111** (Role User Manual — QA Manager)
Supplier	**BM-MAN-113** (Role User Manual — Supplier (portal))
Management (proposed)	**BM-MAN-114** (Role User Manual — Management (Read-only Oversight))

6. Prototype notes

Data is stored in your browser only — another computer does not see your changes. Email, WhatsApp, GPS, OCR and AI functions are simulated and labelled. Do not enter real customer data in the prototype.

Revision history

Version	Date	Author	Description
1.0	2026-11-12	Documentation team	Initial draft prepared from analysis of the bellomassi-premium-ui source code and existing project documents.
