Document title	Existing Documentation Review and Inventory
Document ID	BM-DOC-001
Version	1.0
Status	Draft — for client review
Category	Document Control
Related module(s)	All modules
Document owner	Business Analyst
Prepared by	Project documentation team (AI-assisted draft prepared from source-code analysis)
Reviewed by	*Pending — not yet reviewed*
Approval	*Not approved — awaiting client review (no approval has been given)*
Created date	2026-11-12
Last updated date	2026-11-12

> **Status labels used in this document:** VERIFIED (confirmed in the current source code or existing documents) · PROTOTYPE (works in the React/LocalStorage prototype with mock or simulated behaviour) · PROPOSED (recommended production design, not built) · PENDING CONFIRMATION (needs a client decision) · NOT IMPLEMENTED · NOT VERIFIED.

Purpose

Record every project document and source that existed before this documentation package, what each contains, its version and validity, and how it was used, so that no valid content is lost and outdated content is not reused by mistake.

Scope

All documents supplied with the project up to 12 November 2026 — the Scope of Work presentation, the Driver App GPS guide, the phase implementation briefs, the documents inside the source repository, the project knowledge summaries and the delivered workflow documentation.

Definitions

Other terms: see **BM-GLO-001** (Project Glossary).

Contents

- 1. Summary
- 2. Client documents
- 3. Implementation briefs (requirement sources, not client-approved)
- 4. Repository and project documents
- 5. Source code and archives
- 6. Inconsistencies found between documents
- 7. Outdated or duplicate content

1. Summary

Item	Count
Client-facing documents found	2 (Scope of Work presentation, Driver App GPS guide)
Implementation briefs (requirement sources)	10
Documents inside the repository	5 Markdown files + the 20-chapter workflow documentation set (with HTML, PDF, DOCX editions)
Project knowledge summaries (claude.ai project)	10
Source-code snapshots	9 archives (phase 1 to premium UI) — the latest is the baseline
Third-party source archives	2 (OpenWA, OpenJarvis) — reference only
Duplicates found	3 (Scope of Work uploaded twice; Phase 1 completion brief stored twice; premium-ui archive = workspace)
Approved documents found	**0** — no document carries a client signature or approval record

Key conclusion. The only client-facing requirement baseline is the **Scope of Work (October 2026)**, complemented by the **Driver App GPS Implementation Guide**. The prototype was built from ten phase briefs that extend the SOW considerably (inventory, scrap, VMS, OCR, invoices, email / WhatsApp, customer app, AI). None of these extensions has a recorded client approval; they are treated as **PENDING CONFIRMATION** for production scope (see **BM-DOC-003** (Gap Analysis — Scope of Work, Prototype and Documentation)).

2. Client documents

Ref	Document	Version / date	Content	Validity	Use in this package
E-01	Scope of Work presentation (`Bellomassi-Scope-of-Work_2.pptx`)	October 2026, 18 slides	Order lifecycle (8 steps), 3 deliverables (Order Taking App, Drivers App, Admin Panel), 7 roles, screens per role, notifications table, 8-step status model, value statement, SAP as second stage	**Valid baseline** — not signed	Basis of the BRD, SOW, BR-001…BR-018 and the status model comparison
E-02	Driver App GPS Implementation Guide (`…GPS_Implementation_Guide_English_1.docx`)	Undated, 12 sections	React Native driver app, admin-created accounts, daily workflow, VIP priority, mobile GPS every 10–15 s, background tracking, tracking access rules, technology (Django, PostgreSQL, Channels, Google Maps / Routes), example APIs, costs and risks	**Valid technical direction** — not signed	Basis of driver and tracking architecture, API examples, risks; GPS guide items are PROPOSED

3. Implementation briefs (requirement sources, not client-approved)

Ref	Brief	Main content	Status
E-03	Phase 1 — Foundation, authentication & dashboard shell	App shell, login, demo users, dashboards	Implemented (superseded by E-04)
E-04	Phase 1 completion — authentication, RBAC & administration (stored twice)	RBAC, users, roles, organisation, settings, audit, notifications	Implemented
E-05	Phase 2 — customers, products, hubs & inventory	Master data, stock, receipts, transfers, adjustments	Implemented
E-06	Phase 3 — order management, approval & consolidation	Order form, approval, consolidation	Implemented
E-07	Phase 4 — dispatch, driver assignment & delivery	Dispatch, assignment, delivery, OTP, delivery notes	Implemented
E-08	Phase 5 — VMS, documents & OCR, invoices, email & WhatsApp	Brief text not in the supplied files; content known from the repository README and E-14	Implemented; brief **Not available**
E-09	Phase 6 — AI assistant, Jarvis, forecasting & predictive inventory	AI modules	Implemented (simulated provider)
E-10	Finalisation — missing modules, driver mobile, customer mobile	Scrap, calls, reports, driver and customer apps	Implemented
E-11	Universal dashboard filter + premium UI redesign	Period filter, design system	Implemented
E-12	Complete application workflow documentation	20 workflow chapters	Delivered (E-18)

4. Repository and project documents

Ref	Document	Content	Assessment	Action
E-13	`README.md`	Run instructions, demo accounts, architecture, phase status, routes per phase	Accurate, developer-oriented	Reused in deployment (local development) and source-code handover

Ref	Document	Content	Assessment	Action
E-14	`docs/FINALISATION.md`	Data version 8 release notes, demo script, known limitations	Accurate	Reused in release notes, known issues, limitations
E-15	`docs/RBAC_AND_ADMINISTRATION.md`	Roles, permissions, session simulation, audit, settings, storage keys	Accurate	Reused in security and administration documents
E-16	`docs/INTEGRATION_GATEWAY.md`	Optional backend gateway contract for email, OpenWA, OCR, AI, ML	Accurate as a **contract**; gateway not built	Reused in API and integration documents (labelled PROPOSED / NOT VERIFIED)
E-17	`docs/UI_DESIGN_SYSTEM.md`	Design tokens, components, dashboard filter	Accurate	Reused in UI/UX documents
E-18	`docs/workflow/` (README + chapters 01–19, HTML / PDF / DOCX editions)	Complete workflow documentation, 38 diagrams	Accurate, current (v1.0, 12 Nov 2026)	**Preserved** and referenced as the workflow source; folder 06 adds the 24 workflow specifications
E-19	Project summaries (`claude/phase-*-summary.md`, finalisation, UI, workflow)	Build notes per phase	Informational	Used for the decision log and project history

5. Source code and archives

Ref	Archive	Notes
E-20	`bellomassi-phase1.zip` … `bellomassi-phase6.zip`, `bellomassi-phase1-complete.zip`, `bellomassi-complete.zip`, `bellomassi-premium-ui.zip`	Historical snapshots; superseded
E-21	`bellomassi-premium-ui-with-docs.zip`	**Baseline for this package**; identical to the working repository (verified by file comparison)
E-22	`OpenWA-main.zip`, `OpenJarvis-main.zip`	Third-party sources used to design the integration contract; not part of the deliverable

6. Inconsistencies found between documents

#	Topic	Document A	Document B / code	Resolution in this package
1	Invoicing	SOW slide 3, 13: invoicing stays outside the app	Prototype has a full invoice module	PENDING CONFIRMATION (FR-INVC-005)
2	Customer app	SOW: three deliverables, customers only receive OTP / delivery note	Prototype has a customer app	PENDING CONFIRMATION (FR-CAP-008)
3	Approved figures	SOW slide 8: manager may set approved value and quantity	Prototype approves as submitted	Gap; PENDING CONFIRMATION (FR-APR-007)
4	Finance notification	SOW slides 8, 16: Finance notified on approval, flagged if credit exceeded	Prototype notifies Customer Service and salesman only	Gap (FR-APR-008)
5	Zone planning	SOW slide 10: drag orders into zones on a board	Prototype: zone chosen in the dispatch form; drag and drop for stop sequence	Gap; PENDING CONFIRMATION (FR-DSP-008)

#	Topic	Document A	Document B / code	Resolution in this package
6	Route	SOW slide 12, GPS guide §5: fastest route with live traffic, ETA warnings	Prototype: suggested sequence by priority and pincode; simulated ETA	PROPOSED (FR-DSP-009)
7	OTP delivery	SOW slide 13, 16: OTP by SMS or WhatsApp	Prototype shows the OTP in the customer app	PROPOSED (FR-OTP-005)
8	Status model	SOW slide 17: 8 statuses (Draft … Delivered) + Returned, Rejected, proposed "Delivery problem"	Code: 13 statuses incl. CONSOLIDATED, DISPATCHED, PARTIALLY_DELIVERED, DELIVERY_FAILED, RETURNED_TO_HUB	Code statuses documented; mapping in **BM-DOC-003** (Gap Analysis — Scope of Work, Prototype and Documentation)
9	Country	SOW examples: Sharjah, AED; company record in Dubai, AED	Customer / hub master uses Indian pincode, GSTIN / PAN, +91 numbers	PENDING CONFIRMATION (FR-CUS-005)
10	Driver app technology	GPS guide: React Native app	Prototype: responsive web app under /driver	PROPOSED (FR-DRV-010)
11	Customer role description	`roles.js`: "read-only portal"	Customers can place orders	Documented as implemented behaviour
12	Finance role	SOW: notifications only	Prototype: invoices, templates, reports	PENDING CONFIRMATION
13	Roles	SOW: 7 roles	Code: 13 roles (adds Super Admin, Warehouse Manager, Inventory Executive, QA Manager, Customer, Supplier)	Extra roles PENDING CONFIRMATION

7. Outdated or duplicate content

- The Scope of Work file was uploaded twice with identical content (byte comparison) — one copy referenced.
- The Phase 1 completion brief exists twice (`attachment.txt`, `28eddb00-attachment.txt`) — one copy referenced.
- The Phase 1 foundation brief (E-03) is superseded by E-04 and the implemented code.
- Phase archives E-20 are superseded by E-21.
- The Finance dashboard still carries "Later phase" badges on panels whose modules now exist (UI text, not a document).

Revision history

Version	Date	Author	Description
1.0	2026-11-12	Documentation team	Initial draft prepared from analysis of the bellomassi-premium-ui source code and existing project documents.
